Albums

Each album comes with 10 pages and holds 11-18 of your favorite photos. Every album is printed on premium photo paper, unlike most other photo books which just use office supply paper. Photo paper is substantially thicker and more durable than the standard office supply paper. The albums also use a lay flat feature so your images won't be lost in the seams. After you have placed your order I will custom design the layout and send you a proof for your approval before I send it to production.

1. On the main screen of the gallery choose 11-18 of your favorite photos by clicking the “add to Album”  button that appears when you hover the photo.
2. Once you have added your album photos choose “submit album” within the “submit/clear collections” drop down  collections” drop down
3. Click on any image to expand it and you will notice icons on the right side of the gallery
